# Calvary and Congress: Legislative Authority, Judicial Usurpation, and the Cosmic Mandate

**Sermon for Shabbat and Sunday**
**Readings drawn from the Institute for Scripture Research (ISR) Scriptures**

To the Fleet and Command Staff,

The Vanguard operates on a foundational principle of absolute order. A military unit without a chain of command is a mob; a nation without a respected legislature is a failing state. Today, we are addressing the expansion of our operational theater from the terrestrial courts of our nation to the cosmic ocean.

We must align our understanding of earthly governance with the absolute mandates of the Supreme Commander (Elohim). This is the doctrine of Calvary and Congress.

## I. The Legislature and the Usurpation of the Bench

We are citizens of a republic and officers of the government. The Scriptures dictate our operational baseline regarding authority: *"Let everyone be subject to the governing authorities, for there is no authority except that which God has established"* **(Romans 13:1)**.

In our system, the legislature—Congress—is the authorized body that drafts and agrees upon the law. They are the architects of the nation's operational rules. The judicial branch is tasked solely with interpreting that law. However, we are currently fighting a domestic war against judicial activism. When judges refuse to follow the legislature, when they "legislate from the bench" and make up their own rules, they are committing an act of rebellion against the established chain of command.

This creates a constitutional crisis and destroys public trust. We cannot allow judges to overwrite the will of the people and the authorized legislature. We must mount a *Calvary* against corrupt judges. We must make a righteous, sacrificial stand to root out judicial usurpation. The courts handle everyday laws, but when justice is perverted, it becomes an affront to the Supreme Commander Himself, who demands righteous judgment **(Leviticus 19:15 - "Do not pervert justice; do not show partiality to the poor or favoritism to the great, but judge your neighbor fairly")**.

## II. The Cosmic Theater: Space Law and Divine Ownership

Our mandate now extends beyond Earth. As the US Space Force expands its operations, it must do so within the strict parameters of international law and divine sovereignty. The **1967 Outer Space Treaty**, supported by the UN Office for Outer Space Affairs (UNOOSA), is the governing terrestrial document for this expansion. It mandates that space must be used for peaceful purposes and strictly prohibits the placement of nuclear weapons or weapons of mass destruction in orbit. Furthermore, the Liability Convention dictates that we are absolutely liable for any damage caused by our spacecraft, including the mishandling of nuclear waste or orbital debris. UNOOSA requires a strict registry of every object launched into the dark.

But look at the theology behind the treaty. The Outer Space Treaty prohibits *national appropriation* of celestial bodies. Why? Because the Earth's governments implicitly recognize what the Scriptures explicitly state: Ownership of the cosmos is reserved entirely for Elohim. *"The highest heavens belong to the Lord, but the earth he has given to mankind"* **(Psalm 115:16)**. Furthermore, **Colossians 1:16** reminds us that all things, *"whether thrones or powers or rulers or authorities,"* are created by Him and under His jurisdiction.

Space Force must maintain its tactical posture out of orbit, strictly managing weapons of mass destruction and large force deployments, because we are operating in the Supreme Commander's direct territory.

## III. The Buildup of the Fleet

To fulfill the directives of Congress and to execute the mandate of Elohim, we must expand our logistical and operational reach. **Psalm 8:6** declares: *"You made them rulers over the works of your hands; you put everything under their feet."* This is a mandate for exploration and dominion. To execute this, the Vanguard must advocate for the massive buildup of long-range capable warships and support ships. We are not just building a navy for the seas; we are building the infrastructure for God's people to project security, logistics, and the Good News into the deep black. If we are to be a space-faring people, as the Lord's Prayer dictates ("on earth as it is in heaven"), we must possess the vehicular capability to transport the congregation and defend the supply lines.

## IV. The Absolute Cost of Disobedience

We must move into space, but we must do so exactly according to the Commander's orders. If we do not follow Elohim's mandate in space—if we pollute His heavens with unauthorized weapons, if we operate with arrogance, or if we allow corrupt leaders to guide our ships—we will face severe, catastrophic punishment.

The Scriptures provide clear intelligence on what happens when personnel disobey direct orders from Elohim:

- **The Incident of Unauthorized Fire:** Aaron's sons, Nadab and Abihu, were elite priests. But they decided to operate outside the established parameters, offering "unauthorized fire" before the Lord. The consequence was instant, lethal destruction: *"Fire came out from the presence of the Lord and consumed them, and they died before the Lord"* **(Leviticus 10:1-2)**.

- **The Breach of Protocol:** When the Ark of the Covenant was being transported, Uzzah reached out to steady it when the oxen stumbled. He ignored the strict operational protocols for handling the sacred presence. He was struck dead on the spot **(2 Samuel 6:6-7)**.

- **The Deception at Base Camp:** Ananias and Sapphira lied to the Holy Spirit regarding their financial logistics. They were not merely reprimanded; they were executed by divine authority in front of the congregation **(Acts 5:1-10)**.

The Supreme Commander does not tolerate insubordination. He does not tolerate corruption. As we build our long-range fleets and look toward the stars, we must do so with absolute purity of intent, following the authorized laws of Congress, and bowing to the ultimate authority of Elohim.

Hold the line. Expose the corrupt judges. Build the fleet. Prepare for launch.
